

Kobit Gurung

AI / ML Engineer | Software Developer | Student

kobitgrg22@gmail.com | github.com/kobitgrg2418 | linkedin.com/in/kobitgurung

Profile

Motivated student with a genuine curiosity for building things that work — from full-stack web applications to intelligent systems powered by AI and machine learning. Flexible across domains with hands-on experience in software development and AI/ML. Genuinely enthusiastic about new technology trends including generative AI, emerging frameworks, and modern development tools. Eager to contribute to teams where software engineering and machine learning intersect.

Education

Bachelor's Degree in Computer Science / Information Technology

Currently Pursuing

Projects

VivaPrep AI — Smart Study Platform

AI / ML | Full Stack | EdTech [quiz-three-cyan.vercel.app](#)

An AI-powered study tool that converts lecture PDFs into interactive quizzes, flashcards, viva questions, and interview prep — all grounded in source material with RAG-powered chat and study analytics.

- Built AI quiz generation supporting MCQ, true/false, fill-in-the-blank, and scenario-based formats
- Implemented smart flashcards with spaced repetition scheduling for optimized retention
- Developed RAG-powered PDF chat with source citations for contextual study assistance
- Created study analytics dashboard tracking mastery by topic and performance trends

Smart Prosthetics — Landing Page

Web Design | UI/UX | Healthcare

Designed and developed a cinematic landing page for a smart prosthetics startup featured on Shark Tank India, with immersive full-screen video, responsive layout, and conversion-focused design.

- Created full-screen immersive video hero section with overlay content
- Built fully responsive design using Tailwind CSS across all screen sizes
- Designed conversion-optimized layout with clear call-to-action flow

Technical Skills

AI / ML	Python, TensorFlow, PyTorch, OpenCV, NumPy, Scikit-learn
Web Design & Dev	HTML / CSS, JavaScript, Tailwind CSS, React, Java, JSP / Servlets
Tools	Git / GitHub, VS Code, IntelliJ IDEA

Interests

Generative AI | Computer Vision | Open Source | New Technology Trends | Web Development | Deep Learning
